

TECHNICAL SUBMISSION

Trigon XXL EVO 2000 Gas Fired Ultra Low NOx Condensing Boiler

General Description:

The Trigon XXL EVO 2000 boiler is one of a range of 10 floor standing, stainless steel, fully modulating, ultra-low NOx, gas fired condensing boilers, with maximum outputs ranging between **639 & 1953kW @ 80/60°C ΔT**. Trigon XXL EVO boilers use downward firing pre-mix, water cooled burners which, combined with precise gas to air mixing, results in **extremely low environmental impact NOx emissions (EN 15502) of 21 mg/kWh**. The boiler is calculated to have a **Gross Seasonal Efficiency of 95.9%** which meets with the efficiency criteria as set out in the Non-domestic Building Services Guide Compliance Guide 2010 Edition (with 2011 amendments).

The boiler is very versatile and capable of operating at design condition anywhere between ΔT 10 °C and ΔT 30 °C.

The Trigon XXL EVO 2000 Boiler is supplied with a downward firing burner and four heat exchangers. The first and the fourth are constructed from smooth stainless steel tubes, whilst the second and third heat exchanger is assembled using laser welded stainless finned tubes for enhanced heat transfer.

Compliance with Conformity with the following:

Standards:

EN 15502-1
EN 15502-2-1
EN 55014-1/-2
EN 61000-3-2—3
EN 60335-1/-2

Directives:

1992/42/EEC (Boiler Efficiency Directive)
2016/426/EEC (Gas Appliance Regulation)
2041/35/EU (Low Voltage Directive)
2014/30/EU (EMC Directive)
2009/125/CE Energy Related Products
811-813-814/2013 EU regulation
Single boilers 300kW and above, must be installed in compliance with BS6644.

The product is designated with CE Number

CE0063CR3158

Warranty: To activate warranty, you must **register your product** within six months of the purchase date. This can be completed by telephone or email.

Tele: **0333 240 8777 option One** - New product registrations.

e-mail: **customer.service.uk@ariston.com**

The following information must be provided:

Appliance serial number

Purchase date

Installation date

Site contact name, email address and telephone number

Product installation address.

On the condition that the product has been installed to manufacturers instructions and the warranty terms and conditions have not been compromised, the standard warranty term for the **TRIGON XXL boilers** is **two years** from date of purchase.

All products that are **not registered**, will have a **one year** warranty period and this will cover **material and manufacture fault**, subject to the product being installed to manufacturers instructions.

Technical Data:

Boiler Model	Trigon XXL EVO 2000	
Nominal Heat Output @ 80/60°C	1953	kW
Minimum Heat Output @ 80/60°C	487	kW
Nominal Heat Output @ 40/30°C	2087	kW
Minimum Heat Output @ 40/30°C	548	kW
Nominal Heat Input Full Load – Net	2000	kW
Minimum Heat Input Min Load – Net	500	kW
Efficiency @ 80/60°C Full Load Net – Gross	97.7/88.0	%
Efficiency @ 40/30°C Min Load Net – Gross	109.7/98.8	%
